

Hello Reception Class,

I hope you are being good at home and trying to do some school work each day.

Perhaps you could do some finger maths today.

How about using your fingers to investigate the number story of 6.

Write the sums down too!

And if you are feeling really clever try the number story of 10!

I have put a maths worksheet on *Active Learn* for you to do.

Get a grown up to find the story, 'The Blue Balloon' by Mick Inkpen on YouTube for you to watch. Add the actions just like we did last week in school.

How about adding to our class blog to let me know how you are.

Hopefully I will see you all soon,

Miss Wells.
