

Hi Year 2

Here are some new ideas for you this week to help with your learning at home.

Take a look at White Rose Maths for their new lessons this week about fractions still. <https://whiterosemaths.com/homelearning/ye>:

I have also allocated you some resources on Active Learn Primary - maths and English.

I had yet another letter for us but not this time from the aliens. This time it was from Horrid Henry. He needs our help! His holiday to Coll has been cancelled but his family are still hoping to go away in the summer. He wants some good suggestion as to where to go. Start a fact file for him about somewhere to go. Include where the place is, how they will get there, where he can stay and what the weather will be like hopefully. You might want to draw some pictures or a map of where the place is.

A challenge for you - where is Coll? To get you started Coll is in the United Kingdom. Also find out the 4 countries and waters of the United Kingdom.

I hope you have been practising your tables. This week, why not also practise your number bonds to 10, 20 and 100. You could use Hit the Button <https://www.topmarks.co.uk/maths-games/hit-the-button> to practise or ask your grown up to write you some sums e.g. $? + 17 = 20$.

I am missing reading stories to you. I hope you are still reading to yourself or your younger brother or sister.

Keep working!

Mrs Heafield
