

Hello Year 2

I hope you are still enjoying working at home.  
Here are some more new ideas for you.

Continue with your fact sheet for Horrid Henry about your chosen holiday destination. He now needs to know what he can do there and if it will be fun. Choose as many lots of different things he can do with his family and describe them. Add some pictures to help persuade him that your idea is better than anyone else's! You could also include what sort of food he might eat there. Hopefully, you can persuade him to try something new and not just eat chips!

If you are missing listening to stories about Horrid Henry, click this link to listen to "Horrid Henry's birthday party".

Ask your grown up to write you some mixed up sums, addition and subtraction, to do. Remember to use tens and ones to help you work it out, if it's a tens number or a 2 digit number. Don't forget to cross out if it's a take away!

If you can, log on to active learn. I've allocated you some maths games, books to read, phonic games, SPAG games and science activities about materials. There are even some instructions on how to make modelling dough!

Enjoy  
Mrs Heafield
