Good morning to our Greenlands families,

As we come to the end of the strangest two weeks ever, I just wanted to let you know that we are all thinking of you.

Today would usually be the start of a well-earned two week rest for the Easter holiday. You would be leaving school after the egg decorating and rolling competition as we did last year. Instead, staff are taking it in turns to be in school and it feels very quiet without you and without our usual Easter preparations. We have been delighted to see how quiet the estate is and that you are all sticking to the lockdown rules so this can come to an end as quickly as possible.

We have had no notification as to when schools will reopen. We are seeing the news as you do. As soon as we have any dates we will let you know. It is, as we all feared, going to be later than the end of the Easter holidays. School will remain staffed throughout the holidays, so if you have any queries or concerns please email or phone and leave a message and someone will get back to you.

For those of you entitled to a FSM you need to send your email address to Mrs Silvester at the email at the top of this letter. Once all the emails are collated you will be emailed a weekly voucher to be redeemed at local supermarkets. I can only apologise for the weekly changes in the LCC system up to this point-it was not individual schools making the decisions.

Well done to those of you who are managing with all the work the teachers have set you. Don't let this be a battle. If instead, some days, you are curled up with a book or playing card games or board games it can be just as valuable. We can only just try and make the most of this enforced 24/7 family time.

You are all in our thoughts daily. We miss you and can't wait to see you all again. Stay safe. Keep us updated with your pictures on Facebook. Our value this half term has been 'resilience' and I think we are all living the value.

Love from

Mrs Cornwell and all the staff at Greenlands.
