Dear Year 3,

It was lovely speaking to you and your parents over the phone this week. They told me that you are missing school and all of your friends. They also told me that you have all been working really hard and learning new things; such as new recipes and papier mâché creations. I hope you realise that you are all real-life superheroes by staying indoors and within your 'family bubble'. Perhaps you need a superhero name?!

English:

This week, your English home learning is all about crocodiles! You will learn facts about crocodiles and read the Enormous Crocodile by Roald Dahl.

Maths:

The Lancashire Maths Team and White Rose have planned some fabulous maths resources. Please follow the links below.

Science:

What happens when you don't wash your hands?

Equipment:
2 slices of fresh bread
2 sandwich bags/Ziploc bags

Method:

1. Wash your hands with soap and water for two minutes. You must then dry them thoroughly.

2. Rub your clean and dry hands on the slice of bread and then place it into the Ziploc bag.

3. Get somebody in your house who has not washed their hands recently. Ask them to rub their hands on the other piece of bread. Then place this piece of bread into the other Ziploc bag.

4. Place the two bags in the same location in your house.

5. Observe how the bread changes over time.

Does yours look like mine? Gross!

Art:

Have you seen on the news that whales are communicating more in quieter oceans? I am sure that will make you all smile! Follow this link to make an origami whale. Don't worry if you don't have blue paper. Any paper will do!

Please don't forget to send photographs of your work to l.lonsdale@greenlands.lancs.sch.uk

I have begun a gallery of photos. Check them out here:
