

Hello Year 2

I hope you are enjoying learning all about birds. As you know, they make a nest to lay their eggs. We watched the mummy goose sitting on her nest for weeks before the magic happened and we saw the goslings! I thought you could have a go at making a nest. Next time you are out collect some natural things including twigs, leaves and moss. Use them to try and make a nest. I wonder if it will be easy or hard!

I hope you have enjoyed doing some twitching! (Bird watching) You could make a pictogram of your data and then ask your grown up some questions about it or use the one I have uploaded for you. Don't worry again if you can't print it off, just do it on some paper.

If you want to learn how to draw a bird, follow this link. Remember to keep safe on the internet. <https://www.youtube.com/watch?v=rzxRWTv237M>

Do you know a nursery rhyme about birds? The one I can think of is 'Two little dicky birds'. Why not make up some new actions to it? Have fun.

Mrs Heafield x
