

Hi Reception!

I hope you had a nice half term and are ready for some more home learning. Don't forget that if you have done any lovely work that you want to share with me you can email it to me on k.wells@greenlands.lancs.sch.uk.

Don't forget to practise your reading each day.

Miss Wells. X

Handa's Surprise is the story for this week. You will learn about lots of different animals and fruit. After reading the story I could remember and wrote seven of the fruits. I forgot the guava! Go to the 'Book of the week' tab and see what other activities there are for you to do.

I have made fruit salad before but never fruit skewers! They sound delicious! Write a shopping list of the fruit you would like to buy for your fruit skewer.

Practising taking away using snails made out of wraps and chocolate sauce sounds like a very good idea! That's what they are suggesting on White rose maths Week 6 this week.

Eating fruit is a very important part of keeping healthy! Doctor Raj's song mentions sleep and fruit. What else do we need to do? <https://www.bbc.co.uk/cbeebies/watch/get-well-soon-eat-well-sleep-well> Can you make up your own healthy song? I'll start you off.

This is the way we eat our fruit, eat our fruit, eat our fruit. This the way we eat our fruit to keep ourselves healthy!
