

Hello Year 2

I hope you are still enjoying home learning and staying safe. I have uploaded some addition and subtraction booklets for you on the school website in the homework section. There is an easier and harder booklet. Have a go at them. Don't worry if you can't print them off, just copy the sums onto paper.

As we are still finding out all about birds, I thought you might like to make a bird feeder to put in your garden if you have one. I have uploaded some instructions for you. The birds in my garden never seem to stop eating at the moment!

You can still do the home learning at Oak National Academy and maths at White Rose Maths.
