

WC 29.06.20

Hello Year 3!

I hope you are all well. Here are this week's home learning activities.

English:

This week is called Monster Mayhem! You'll spend the week with monsters - stories, film clips, poems and more. You will even create your own monster and also make some monster food for your family.

Maths:

Please follow the links to access lots of maths activities:

Lancashire Maths Planning:

http://www.lancsngfl.ac.uk/curriculum/primarymaths/index.php?category_id=1211

White Rose Maths Planning:

<https://whiterosemaths.com/homelearning/year-3/>

Science:

Think back to when you learnt about plants in KS1. How do you think water is transported through plants? Follow the link to carry out your own investigation on how the water travels. You will need: a white flower, food colouring and a beaker/cup. Explain what you have found using the sheet provided.

Art:

Make some prints using toilet paper rolls. All you need is some scissors, paint, paper and creativity! Snip away at one end of the roll and fold the cardboard back. Please send me photos of your work to l.lonsdale@greenlands.lancs.sch.uk
