

Hi Reception!

It seems like a very long time since I last saw you all. I hope you are all being Superstars at home just like you were for me at school. Don't forget to email me any lovely work you want to share with me.

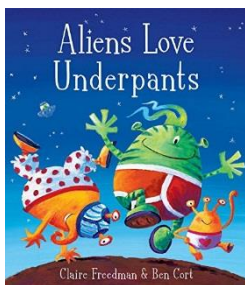

k.wells@greenlands.lancs.sch.uk

Keep practising your reading and phonics.

Miss Wells. X

There are three stories this week which all have aliens in them. You might remember Alien's Love Underpants as we have read it at school. If I was creating an alien I think it would have ten eyes and four noses! It would be good if you could create your alien and write some sentences to describe it. Have a look at the book of the week tab, Week 12 for some other writing ideas.

Make a shape alien using circles, squares, rectangles and triangles. Pretend you are presenting a Shape Show. You will need to tell your audience not only the names of the shapes, but also about how many sides and corners they each have.

Junk modelling is very messy but lots of fun! I think all of these aliens started life as toilet roll tubes! Be as creative as you can be. Make sure you give your alien a name. It would be lovely if you could send me a picture of your alien.

There are lots more maths tasks for you to do on White rose maths Week 9. Remember to look on the Lancashire website too.
